CAR PARKING**Purpose**

To ensure that car parking facilities are provided in accordance with:

- The State Planning Policy Framework and the Local Planning Policy Framework including the Municipal Strategic Statement and local planning policies.
- Any parking precinct plan.

To provide the opportunity to use parking precinct plans in appropriate locations.

To promote the efficient use of car spaces through the consolidation of car parking facilities.

To ensure the provision of an appropriate number of car spaces having regard to the activities on the land and the nature of the locality.

To ensure that the design and location of car parking areas:

- Does not adversely affect the amenity of the locality, in particular the amenity of pedestrians and other road users.
- Achieves a high standard of urban design.
- Creates a safe environment for users, particularly at night.
- Enables easy and efficient use.
- Protects the role and function of nearby roads.
- Facilitates the use of public transport and the movement and delivery of goods.

52.06-1

Car spaces**Provision of car spaces**

A new use must not commence or the floor area of an existing use must not be increased until the required car spaces have been provided on the land.

Where the floor area occupied by an existing use is increased, the parking requirement only applies to the floor area of any extension of the use or site area provided the existing number of car spaces is not reduced.

Number of car spaces required

The table at Clause 52.06-5 sets out the number of car spaces required for uses not covered by a parking precinct plan or another clause. The requirement for car spaces for a use listed in column 1 of the table is the product of columns 2 and 3 of the table.

A permit may be granted to reduce or to waive the number of car spaces required by the table.

Where a use is not specified in the table at Clause 52.06-5, an adequate number of car spaces must be provided to the satisfaction of the responsible authority.

These requirements do not apply if there is a parking requirement for the particular use under another clause or in a parking precinct plan.

Decision guidelines

Before a requirement for car spaces is reduced or waived, the applicant must satisfy the responsible authority that the reduced provision is justified due to:

- Any relevant parking precinct plan.
- The availability of car parking in the locality.
- The availability of public transport in the locality.
- Any reduction in car parking demand due to the sharing of car spaces by multiple uses, either because of variation of car parking demand over time or because of efficiencies gained from the consolidation of shared car parking spaces.
- Any car parking deficiency or surplus associated with the existing use of the land.
- Any credit which should be allowed for a car parking demand deemed to have been provided in association with a use which existed before the change of parking requirement.
- Local traffic management.
- Local amenity including pedestrian amenity.
- An empirical assessment of car parking demand.
- Any other relevant consideration.

Design and construction

Car parking plan

Before any use commences or any building or works associated with that use or an existing use is constructed, a plan must be prepared to the satisfaction of the responsible authority showing all required car spaces, access lanes, driveways and associated works and landscaping.

Provision before commencement

Before any use commences or any new building is occupied, the car spaces, access lanes, driveways and associated works and landscaping shown on the plan must, to the satisfaction of the responsible authority, be provided and available for use and be:

- Formed to such levels and drained so that they can be used in accordance with the plan.
- Treated with an all-weather seal or some other durable surface.
- Line-marked or provided with some other adequate means of showing the car spaces.

Decision guidelines

Before deciding that any plan is satisfactory, in addition to the decision guidelines in Clause 65, the responsible authority must consider:

- Any relevant parking precinct plan.
- Whether the layout of car spaces and access lanes are consistent with Clause 52.06-5 or a variation generally in accordance with Australian Standard AS2890.1 - 1993, Parking facilities, Part 1: Off-street car parking.
- The protection and enhancement of the streetscape.

- The provision of landscaping for screening and shade.
- The design and construction standards proposed for paving, drainage, line marking, signage, lighting and other relevant matters.
- The provision for pedestrian movement within and around the parking area.
- The measures proposed to enhance the security of people using the parking area.
- The provision of parking facilities for cyclists and disabled people.
- The type and size of vehicle likely to use the parking area.
- The ease and safety with which vehicles gain access to the site and circulate within the parking area.
- The need for the required car spaces to adjoin the premises used by each occupier, if the land is occupied by more than one occupier.

Design of car spaces and accessways

Design requirements

Accessways should:

- Be at least 3 metres wide.
- Have an internal radius of at least 4 metres at changes of direction or intersections or be wider than 4.2 metres.
- Provide a turning space so that cars can exit the site in a forward direction if the accessway serves four or more car spaces or connects to a road in a Road Zone.
- Provide a passing area at the entrance at least 5 metres wide and 7 metres long if the accessway serves ten or more spaces and is either more than 50 metres long or connects to a road in a Road Zone.

Car spaces and accessways should have the following minimum dimensions:

Angle of car spaces to accessway	Accessway width	Car park width	Car park length
Parallel	3.6 m	2.3 m	6.7 m
45°	3.5 m	2.6 m	4.9 m
60°	4.9 m	2.6 m	4.9 m
90°	6.4 m	2.6 m	4.9 m
	5.8 m	2.8 m	4.9 m
	5.2 m	3.0 m	4.9 m
	4.8 m	3.2 m	4.9 m

A building may project into the space if it is at least 2.1 metres above the space.

If entry to the car space is from a road, the width of the accessway may include the road.

If an accessway to 4 or more car spaces is from land in a Road Zone, the access to the car spaces must be at least 6 metres from the frontage.

Variation of requirement

A permit may be granted to vary any dimension or requirement of this clause. Before deciding on an application, the responsible authority must consider:

- Whether the dimensions and layout of car spaces and access lanes are generally in accordance with Australian Standard AS2890.1 - 1993, Parking facilities, Part 1: Off-street car parking.
- Any relevant parking precinct plan.

Dwellings and residential buildings

The requirements of Clauses 52.06 do not apply to an application to construct or extend a dwelling or a residential building under any provision of this scheme if the land is in the Residential 1 Zone, Residential 2 Zone, Mixed Use Zone or Township Zone unless the development is four or more storeys, excluding a basement.

Car parking table

USE	CAR SPACE MEASURE	RATE
Residential building, other than specified in this table	Car spaces to each lodging room	1
Caretaker's house	Car spaces to each dwelling	1
Dwelling, other than Caretaker's house if at least 2 on a lot	Car spaces to each dwelling	2
Shop other than specified in this table	Car spaces to each 100 sq m of leasable floor area	8
Betting agency Market	Car spaces to each 100 sq m of net floor area	8
Restaurant	Car spaces to each seat available to the public	0.6
Office other than specified in this table Postal agency	Car spaces to each 100 sq m of net floor area	3.5
Hotel or Tavern	Car spaces to each 100 sq m of bar floor area available to the public, plus	60
	Car spaces to each 100 sq m of lounge floor area available to the public	30
Motel	Car spaces to each unit, plus	1
	Car spaces to each resident employee, plus	1
	Car spaces to each 100 sq m of motel service floor area not available for use by guests	2
Industry other than specified in this table Mail centre	Car spaces to each 100 sq m of net floor area	2.9

USE	CAR SPACE MEASURE	RATE
Materials recycling Fuel depot Milk depot Motor repairs	Percentage of site area to be set aside for car spaces and access lanes, but not driveways	10
Plant nursery Saleyard Store other than specified in this table Timber yard Utility installation	Percentage of site area to be set aside for car spaces and access lanes, but not driveways	10
Freezing and cool storage Warehouse other than specified in this table	Car spaces to each 100 sq m of net floor area	1.5
Display home	Car spaces to each dwelling for five or fewer contiguous dwellings, plus Car spaces to each additional contiguous dwelling	5 2
Medical centre Veterinary centre	Car spaces to each practitioner	5
Hospital	Car spaces to each bed available for use by patients	1.3
Place of assembly Funeral parlour	Car spaces to each seat or to each sq m of net floor area, whichever is greater	0.3
Golf course	Car spaces to each hole	4
Bowling green	Car spaces to each rink	6
Squash court other than in conjunction with a dwelling	Car spaces to each court	3
Swimming pool other than in conjunction with a dwelling	Car spaces to each 100 sq m of site	5.6
Tennis court other than in conjunction with a dwelling	Car spaces to each court	4
Primary school	Car spaces to each employee	1
Secondary school	Car spaces to each employee	1.2
Tertiary institution	Car spaces to each full-time student and three part-time students	0.6
Convenience shop if the leasable floor area exceeds 80 sq m	Car spaces to each premises	10

Parking precinct plan

A parking precinct plan is a strategic plan relating to parking of cars and other vehicles within a defined area which is incorporated into this scheme and listed in the schedule to this clause. A parking precinct plan may form part of a more general land use or other strategic plan or policy.

A parking precinct plan may specify different requirements to those set out in the table at Clause 52.06-5.

The parking precinct plan must include the following information:

- The purpose of the plan.
- The area to which the plan applies.
- The parking outcomes to be achieved by the parking precinct plan.
- An assessment of car parking demand and supply in the precinct.
- Any locational, financial, landscape or other actions or requirements necessary to implement the parking precinct plan.
