**EARTH RESOURCE EXPLORATION AND DEVELOPMENT****Purpose**

To allow land to be used and developed for mineral exploration without the need for a permit.

To ensure that mining and geothermal energy extraction are not prohibited land uses.

To allow land to be used and developed for mining or geothermal energy extraction either subject to a permit (except in those areas where a permit is not required) or subject to the preparation of an environmental effects statement under the Environment Effects Act 1978.

To ensure that mining or geothermal energy extraction is carried out in accordance with acceptable environmental standards.

**Mining****Permit requirement**

A permit is required to use or develop land for mining.

This does not apply if either:

- An environment effects statement has been prepared under the Environment Effects Act 1978 and mining is exempt from the requirement to obtain a permit under Section 42 or Section 42A of the Mineral Resources (Sustainable Development) Act 1990.
- The mining is in accordance with and within an area covered by a mining licence granted or Order made by the Governor in Council under Section 47A of the Electricity Industry Act 1993.

**Geothermal Energy Extraction****Permit requirement**

A permit is required to use or develop land for geothermal energy extraction.

This does not apply if an environment effects statement has been prepared under the Environment Effects Act 1978 and geothermal energy extraction is exempt from the requirement to obtain a permit under Section 62 of the Geothermal Energy Resources Act 2005.
