

Sustainable development in alpine areas**Objective**

To facilitate sustainable use and development of Alpine areas for year-round use and activity.

Strategies

Protect and manage significant environmental features and ecosystems, taking into account the sensitive and fragile nature of the alpine environment.

Ensure that the use and development of land is managed to minimise the disturbance of indigenous flora and fauna and sensitive landscapes.

Ensure that there is a mixture of use and development to cater for users of alpine areas in all seasons.

Recognise the distinct environments, infrastructure needs and capabilities to support different activities of each alpine resort and other alpine areas.

Provide for the development of consolidated alpine villages, including a diverse range of employment, social and economic opportunities.

Promote development for active recreation solely at Falls Creek, Lake Mountain, Mt Buffalo, Mt Baw Baw, Mt Buller and Mt Hotham.

Promote intensive residential and commercial development at Falls Creek, Mt Baw Baw, Mt Buller and Mt Hotham.

Maintain Mt Stirling as an all-season nature based tourist, recreational and educational resource.

Ensure that the sustainable long term planning and management of Victoria's six alpine resorts is consistent with the strategic directions contained in the *Alpine Resorts Strategic Plan* (Victorian Government, Alpine Resorts Co-ordinating Council, 2012).

Develop, monitor and regularly review the Alpine Resort Environmental Management Plans and Comprehensive Development Plans for each alpine resort, recognising their unique characteristics, constraints and opportunities.

Encourage best practice in design that responds to the alpine character of the area.

Ensure heritage places are protected and conserved, including Aboriginal cultural heritage and post contact heritage places.

Ensure that increases in skier, pedestrian and vehicular activity in the resorts do not compromise public safety or the accessibility and capacity of ski fields, services, commercial activity and development of trailheads.

Implement approved plans, manage development and work with Alpine Resort Management Boards to effectively operate alpine resorts and protect alpine resources.

Policy guidelines

Consider as relevant:

- Any applicable approved Victorian Environmental Assessment Council recommendations.
- Any relevant State Environment Protection Policy.
- Any approved management plan or guideline endorsed by the Minister for Energy, Environment and Climate Change or Minister for Water.

Policy documents

Consider as relevant:

- *Alpine Resorts Strategic Plan* (Victorian Government, Alpine Resorts Co-ordinating Council, 2012)

- The Memorandum of Understanding in relation to the Co-operative Management of the Australian Alps National Parks, agreed to by the member states and territories of Victoria, Australian Capital Territory and New South Wales
