Housing supply

Objective

To facilitate well-located, integrated and diverse housing that meets community needs.

Strategies

Ensure that an appropriate quantity, quality and type of housing is provided, including aged care facilities and other housing suitable for older people, supported accommodation for people with disability, rooming houses, student accommodation and social housing.

Increase the proportion of housing in designated locations in established urban areas (including under-utilised urban land) and reduce the share of new dwellings in greenfield, fringe and dispersed development areas.

Encourage higher density housing development on sites that are well located in relation to jobs, services and public transport.

Identify opportunities for increased residential densities to help consolidate urban areas.

Facilitate diverse housing that offers choice and meets changing household needs by widening housing diversity through a mix of housing types.

Encourage the development of well-designed housing that:

- Provides a high level of internal and external amenity.
- Incorporates universal design and adaptable internal dwelling design.

Support opportunities for a range of income groups to choose housing in well-serviced locations.

Plan for growth areas to provide for a mix of housing types through a variety of lot sizes, including higher housing densities in and around activity centres.

Policy documents

Consider as relevant:

- *Homes for Victorians - Affordability, Access and Choice* (Victorian Government, 2017)
- *Apartment Design Guidelines for Victoria* (Department of Environment, Land, Water and Planning, 2017)
